

# Peli Lights - L4 LED 1830 Series

*Handy and bright LED light*

Black

Gray

## L4 LED 1830

The L4 1830 is a handy, unbelievable bright LED light that's powered by 3 AAAA alkaline cells (included). The light weight, slim profile design fits neatly in your pocket and comfortably in your hand. A push button tail switch provides quick on/off or momentary activation. The clip is virtually unbreakable because it is moulded to the Xenoy body as one unit. And because it is moulded out of polycarbonate resin, it won't cause sparks and is safe to use in electrical environments.

## L4 LED 1830 Zone 0

The Peli MityLite 1900Z1 is a powerful, compact torch that's ATEX certified safe for use in hazardous Zone 1 (Category 2) locations. This torch is perfect for professionals who work in areas with high risk of explosion such as chemical, pharmaceutical, power, oil and gas, and fire rescue. It's powered by 3 AAAA alkaline cells and submersible to 150 meters.
