EMERGENCY BAG 
FULLY EQUIPPED EMERGENCY BAG

EMERGENCY BAG

- in high quality containing equipment for rapid response

LOTEK A/S offers two standard versions for the emergency bag. It is possible to add further contents where needed.

Type II is equipped with a Samaritan PAD defibrillator plus accessories.

Lotek A/S offers an emergency bag with contents for rapid response when every second counts.

Heavy-duty and practical quality

The emergency bag is made from durable and dirt-resistant material, ensuring easy cleaning after use. The bag can be quickly transported to the scene either by one of the carry handles or as a backpack.

Assembly of equipment

The emergency bag collects the necessary first aid equipment, ensuring that everything is brought to the location. It is suitable for larger companies with their own first aid teams or on-site fire brigades. Additionally, the bag is ideal for first aid attendants, security teams, incident commanders, fire and rescue vehicles, sailing and sports clubs, swimming pools, etc.

Individual customization

There is plenty of opportunity for packing with individually tailored materials depending on local conditions, including items such as neck collars, bandaging products, burn treatment, stretchers, oxygen and blood pressure monitors, etc.

Lotek offers two standard versions of the emergency bag.

1 Type I - Product no. 4460039

Nummer	Beskrivelse	Antal
