- Fire suppression control unit compliant with EN ISO 13849-1

LOTEK®
safety

YOUR EXPERTS FOR
OBJECT PROTECTION

- Professional team and experienced worldwide partner network, responsible for sales, project planning, installation and maintenance
- Full carefree service for you with reliable support
- Maintenance of external small fire suppression systems possible

OUR PERFECT SOLUTION FOR YOUR REQUIREMENTS

1. **FIRE SUPPRESSION CONTROL UNIT RX400**
2. **CYLINDER-VALVE ASSEMBLY**
3. **PUSH-BUTTON MANUAL CALL POINT OR MANUAL HAND RELEASE**
4. **FIREDETEC® PNEUMATIC DETECTION TUBE**
5. **BELL NOZZLE**
6. **UV FLAME DETECTOR**
7. **ACOUSTIC ALARM**
8. **DIMES ALARMBOX**

1. Construction of system up to performance level d and compliant according to DIN EN 19353 and DIN EN 13849

8. The alarm box is CE-approved, has an integrated alarm, optical and acoustic

OTHER OPTIONS
- **MANIFOLD BLOCK WITH PRESSURE SWITCH**
- **SOLENOID ACTUATOR**
- **VENTILATION SHUT-OFF CAP**
- **THERMO SENSOR**

FIREDETEC® FIRE SUPPRESSION SYSTEM FOR SMALL OBJECTS AND MACHINES

Protects exhaust air systems, control cabinets, automatic machines that do not require additional protection measures to protect staff

FIRE SUPPRESSION CONTROL UNIT FOR MACHINES WITH STAFF PROTECTION MEASURES

- With a DIMES digital measuring system - Audible and visual alarm - Discharge of the fire suppression system
- Possibility to upgrade systems up to Performance Level d (PLd)
