

# LIFEBUOY

- Lifebuoy for saving both seamen and passengers.

Product no.: SEE001004/ SEE001015

The Lifebuoy is an individual lifesaving device for both seamen and passengers use. Suitable for use on both small and medium-sized coastal as well as ocean going ships.

## Specially designed for commercial use

- Ideal for cargo & passenger vessels.
- Available codes with SOLAS/MED and USCG SOLAS approvals.
- It features a hard, cross-linked polyethylene outer shell that does not deteriorate and is unaffected by extreme weather conditions.
- The grab line which surrounds the Lifebuoy Ring is designed to withstand oil and flames and provides easy & quick grab in case of emergency. Made of polyethylene.
- It is equipped with 400 sq.cm of SOLAS Retroreflective Tape (70180) that provides enhanced visibility in low light conditions.
- The highly visible colour of the Lifebuoy Ring makes it easily detectable in water, through waves and fog.
- For maximum effectiveness, combine the Lifebuoy Ring with the Floating Line and the Lifebuoy Lights.

Note: Should there be any damage, deformation or other technical changes on the Lifebuoy, please stop using it.

### Lifebuoy:

Item Number	Description	Crust material	Filler material	Drop height	Buoyancy
