- Fire class A:** Solid materials, e.g. wood, paper and textiles
- Fire class B:** Flammable liquids
- Fire class C:** Gasses

12 kg DS/EN-approved pressurised powder fire extinguisher with the highest extinguishing capacity on the market.

The extinguisher is filled with one of the market's highest quality ABC powders, ensuring exceptional firefighting performance.

Suitable for extinguishing fires involving solid combustible materials, flammable liquids, and gases. The size of the extinguisher combined with its extremely high extinguishing rating for both flammable liquids and solid materials makes it ideal for tackling larger fires as well.

Equipped with stainless steel carrying and operating handles for durability and corrosion resistance.

Features a pressure gauge for easy status monitoring.

Supplied with a protective base ring, providing a stable footing and protecting the bottom of the cylinder from damage.

The robust construction, combined with high-quality materials, makes this extinguisher suitable for use even in harsh and demanding environments.
